Enthusiastic Informatics student at Multimedia Nusantara University (6th semester) with a passion for Front-End, Mobile Development, and UI/UX Design with experience in web and mobile projects. Passionate about building high-quality digital products that enhance user experience and solve real-world problems.

EDUCATION

Multimedia Nusantara University | *Under Graduate of Informatics* (GPA: 3.00/4.00)   2022 – Present

SKILLS

- **Languages:** Java, JavaScript, Kotlin, C
- **Web:** HTML, CSS, Tailwind, React, Laravel, phpMyAdmin
- **Mobile:** Kotlin, Jetpack Compose, React Native, Android Studio, ExpoGo
- **Tools:** VScode, GitHub, JupyterNotebook, RStudio, Figma

PROJECT

Website Mentoring UMN 2024 | *ReactJS, TailwindCSS*

- Developed an interactive website using ReactJS, Vite, and TailwindCSS to support UMN Mentoring 2024. Designed to introduce new students to the 5C values and provide key information on group assignments and event schedules throughout the four-week program.

Minko E-Commerce Furniture | *TailwindCSS, HTML, CSS*

- Designed and developed *Minko*, a furniture e-commerce website created for a Human-Computer Interaction course. Built with modern web technologies and TailwindCSS, focusing on intuitive, responsive, and aesthetically pleasing user experience.

Cloning UI of Captain Barbeshop | *JavaScript, ExpoGo*

- Duplicated the Captain Barbershop application using JavaScript and ExpoGo for a Cross-Platform course assignment, focusing on creating a functional and user-friendly app for scheduling and managing appointments.

U-Journal Application | *Kotlin*

- Developed the U-Journal application as a full-stack developer using Kotlin and Jetpack Compose, implementing a responsive UI, smooth navigation, and note management features including photo and geolocation support.
